Superintendent's Report

To the School Board and Citizens of the Dummer School District:

In my message to the voters of the District last year I mentioned several legislative acts that would be of significance in the years ahead. The act establishing the Interim Commission on Education has resulted in a detailed study of school finance, higher education, and District reorganization. The Preliminary Report has been submitted to the legislature.

Highlights of the study include the following:

1. There are now only eight schools in the state with six or more grades in one room. This compares with 803 one room schools in 1919, 327 in 1939, and 35* in 1961. (Of these 35* the above eight have six or more grades taught by one teacher.)
2. It is recommended that the number of Supervisory Unions be reduced from 48 to 34.
3. It is recommended that in intermediate organization be established between the single District and the Cooperative. This organization would be known as the A.R.E.A. (Authorized Regional Enrollment Area)
4. It is recommended that the Berlin-Gorham-Errol area constitute one such area.
5. It is recommended that state aid be increased to Districts in A.R.E.A. and Cooperative Districts.
6. In A.R.E.A. Districts part of the tuition costs would be financed from state funds.
7. It is recommended that each elementary child be taught in a single grade situation.

As the initial report is very extensive it is impossible to bring all the information to every person. I would encourage all citizens to watch for developments of this report in the legislature.

Legislation

Legislation being proposed this year in Concord include the usual foundation aid for poorer school districts, construction aid and additional support for intellectually retarded. New legislation being proposed include: transportation aid (probably 25%), flat grant aid (probably on a scale of \$10.00-\$100.00 per pupil), return of Head Tax to the towns and earmarked for support of schools, and a state lottery, funds from this will probably be earmarked for schools.

Budget and Warrant

Your School Board and Superintendent have spent much time on the proposed budget. In a true sense, we have little control on the amount of money needed to run a school. Many items are fixed by statute or economic conditions. However, even in the time of rising school costs we have managed to hold the line on our budget requests. Our total budget request is \$23,349.57. This represents an increase of \$1,043.62. The tuition budget item has increased \$1,045.00.

One special article is included in the Warrant this year. This article calls for the voter's opinion on selling the West Dummer School. As the School Board and I can see no further use of the building for school purposes, it is our recommendation that it be sold.

By prudent budget control we were able to install a new water line to the Willis School. Funds to finance the project were taken from last year's budget and this year's budget. Your School Board is to be commended for working out a financial solution to our water problems from existing budgets.

New Accounting Procedures

On July 1, 1962 the New Hampshire Tax Commission and State Department of Education prescribed new accounting and budgetary procedures for school district. New Hampshire became the 47th state to adopt all or a substantial portion of these new procedures. The primary purposes in adopting this new system include:

1. to improve the accounting for school funds
2. to assist local districts in the preparation of a more meaningful district budget
3. to improve the accuracy of local, state and national summaries
4. to facilitate comparisons of financial information among New Hampshire school districts
5. to provide a more reliable basis for reporting to the public on the condition and progress of education.

Our current budget as approved last March had to be converted into the new accounting system. You will note in this Annual Report the two different budget summaries necessitated by the change in accounting and budgeting.

Tuition

Berlin tuition rates for 1963-64 are \$350.00 for Junior High and \$449.00 for High School. The High School rate is \$8.00 less than the 1962-63 rate of \$457.00. I am very pleased that most of our high school students are staying in school.

Conclusion

I have enjoyed working with your School Board and District personnel. Theirs is a difficult task and many times a thankless one. In their endeavor to support quality education their views and actions sometimes differ with citizens. However, their desire for quality demands the respect of all. They deserve your support and gratitude for performing their duties efficiently.

Yours truly
LEON J. LAKIN
